LAWNWOWER 189cc

This self-propelled Pro Power lawnmower has a powerful 189cc motor and a solid steel housing. With an impressive cutting width of 56cm and 7 different height settings, precisely adjustable between 25 and 70mm, the durable machine even mows large lawns up to 1500m² with the greatest ease.

With his 5 different functions, the POWPG10120 is capable of more than only lawnmowing: it disposes of a side discharge, a rear discharge and a mulching function. Grass clippings are mulched into very fine pieces which are excellent to feed the soil in your garden. The cutting blade, just as wide as the wheel base, enables you also to cut to the edge. His large 70L collection bag collects the cuttings during the job. A full bag indicator warns you moreover when it's full.

The ball bearing wheels and an adjustable handle height make this solid lawnmower highly manoeuvrable. To improve the operator's comfort, the POWPG10120 is equipped with a soft grip handle which is foldable for compact storage. Thanks to the easy start engine, you can immediately start working: you only need to turn the fuel button and pull the handle and pull cord.

Spark plug wrench and mulching kit are included.
