POWX153 BENCH DRILL 350W

This 350W bench drill of Powerplus lets you drill up to Ø 50mm deep in wood and in steel. It can easily be adjusted at the desired height. The 160x160mm table is rotatable up to 45° and can be set at different heights. You can choose between 5 speed settings, from 580min⁻¹ until 2650min⁻¹, depending on the drilling job.

The POWX153 features a sturdy steel column and its safety guard takes care of a secure device. This bench drill doesn't require a lot of maintenance: regularly clean the machine housing with a soft cloth and keep the ventilation slots free from dust and dirt, preferably after each use.

A chuck, a chuck key, 3 flat washers, 3 spring washers, 3 bolts and 2 hex keys are included.
