POWXG10231

CHAINSAW 50.4cc | 500mm

Cutting larger branches or entire tree-trunks? This Powerplus chainsaw with a two-stroke 50,4cc engine offers you the necessary power and comfort for the chore. With a bar of no less than 500mm and a petrol motor you work very efficiently and without hindrance of cables.

In spite of this powerful motor, you are still able to hold the Powerplus machine very comfortably thanks to the vibration reduction system.

Besides that, you also save time, because the easy start gets you sawing quickly and the quality Oregon chain and guide bar are lubricated automatically. This results in a device with a longer lifetime.

The auto brake hand guard guarantees the operator's and machine's safety. The engine shuts down in case of kickback.
