BRUSH CUTTER 40V - POWDPG7551

This powerful 40V brush cutter from Dual Power is a true all-rounder. With this cordless tool, you are able to mow or trim with no restriction of a cable and with a large freedom of movement. It deals with thick and high grown weed and overgrown grass, but it also trims lawn edges or difficult corners. All you have to do, is replacing the cutting blade by the 5m long trimmer line (both included).

When using the brush cutter, you dispose of a working width of 25.5cm. When choosing the grass trimmer, you dispose of a working width of 32cm. The double spool has a tap & go line lengthening system. Simply tap the head on the ground and the line will be automatically lengthened.

By eliminating friction, the brushless motor works more efficiently: you enjoy more power while mowing, as well as a device with a longer lifetime and less maintenance. Despite all that power, you only feel very little vibrations while working, because this 2-in-1 Dual Power tool features a vibration reduction. With the handy carrying belt and bike handle, you are able to work more ergonomically and to relieve your back as well as your muscles.

The 40V battery is not included. It is sold separately and it is compatible with the entire Dual Power range.
