POWDP9062 CHARGER 20V/40V + BATTERY 40V 2.5Ah SAMSUNG

This set contains a 40V battery for the DUAL POWER tools, as well as a 20V/40V charger.

40V Li-ion battery

This 40V battery is compatible with all tools from the DUAL POWER range, both power and gardening tools. The battery with Samsung cells has a high capacity of 2.5Ah.

You can use the 40V battery for both 20V and 40V tools. If you combine the battery with a 20V DUAL POWER tool, you double the run time.

3 LED indicators allow you to check its capacity level so you know at any moment whether you need to charge the battery.

Charger 20V/40V

Your DUAL POWER battery is empty? Charging the 40V battery takes 2 - 2,5 hours. Charging the 20V battery takes only +/- 40min. Once the battery is charged, a red indication light will turn green and you can continue working.

The charger is designed for the 20V and 40V DUAL POWER battery. You can use it for our new generation of batteries, but just as well for the older generation. In that way you can easily keep using your other DUAL POWER batteries too.

Discover our new generation Dual Power batteries: a 20V and 40V Li-ion battery with an even higher capacity.
