## ANGLE GRINDER 20V - POWDP35100

The POWDP35100 is an easy-to-handle and highly manoeuvrable tool, thanks to its small disc diameter of Ø115mm. The cordless angle grinder reaches a maximum rotation speed of 8500min<sup>-1</sup>. Therefore, the 20V power tool is ideally suited for grinding slots, cutting tiles and deburring metal.

The auxiliary handle can be mounted on the left and on the right side to accommodate both left- and right-handed DIYers. Additionally, the wrench to change the grinding discs is stored in the auxiliary handle, so it can't be lost.

This Dual Power tool is even safer to use thanks to its double safety switch that prevents the tool operating involuntarily. On top of that, the soft start motor increases the rotation speed gradually.

DISCOVER THE ENTIRE PRODUCT RANGE AT  
**WWW.DUAL-POWER.COM**

### Separate battery and charger

The battery and charger are not included. They are sold separately and are compatible with the whole Dual Power range.

### Which Dual Power batter is compatible?

This 20V angle grinder is compatible with both the 20V and 2x20V Dual Power batteries. The use of a 2x20V battery ensures an even longer battery run time, compared to the use of a 20V version.
