## RECIPROCATING SAW 20V - POWDP25100

This cordless 20V reciprocating saw from Dual Power is suited perfectly for a number of sawing tasks, ranging from cutting pipes to branches in the garden. The saw has a sawing capacity of 120mm in wood and 10mm in steel. It provides up to 2800 sawing motions per minute with a reciprocating length of 28mm.

The POWDP25100 features a comfortable soft grip and an easy-to-adjust shoe and cutting angle. Thanks to the quick blade change system, the saw blade can be changed in the blink of an eye. A work light ensures a perfect view of the workpiece, even in darker places.

### Separate battery and charger

The battery and charger are not included. They are sold separately and are compatible with the whole Dual Power range.

### Which Dual Power batter is compatible?

This 20V reciprocating saw is compatible with both the 20V and 40V Dual Power batteries. The use of a 40V battery ensures an even longer battery run time, compared to the use of a 20V version
