HIGH PRESSURE CLEANER POWXG90416

The 2000W motor of this pressure washer from Powerplus delivers up to 450 litres of water per hour with a maximum pressure of 160 bar.

The POWXG90416 prevents wasting water and electricity with its automatic start-stopsystem. This system activates the motor only when needed.

The integrated detergent tank with automatic suction comes in handy for cleaning patios, removing stubborn dirt or washing cars. Thanks to its extendable handle and sturdy wheels, the pressure washer is even easier to transport. Its 5m long cable and 8m water hose offer the needed flexibility and an extended range of motion. To prevent the cable and hose from getting entangled, the washer is equipped with a practical cable and hose reel.

The POWXG90416 comes with a brush, patio cleaner, adjustable nozzle and turbo nozzle.
