### LAWNMOWER 141cc 460mm - POWXG60240

This self-propelled petrol lawnmower with steel housing has a 141cc eco driver 4-stroke engine and a cutting width of 460mm. This makes him perfect for use in medium-size gardens. The desired cutting height can be adjusted in no less than 7 stages from 25mm and 75mm. The cut grass can either be finely mulched, discharged at the rear or the side of the lawnmower or can be collected directly into the large 55 liter grass collector.

You can also adjust the handle height for easy manoeuvring. After mowing you can fold the handle, clean the lawnmower with the water nozzle and store it more compactly.
