PNEUMATIC SANDBLASTING SET - POWAIR0014

This pneumatic sand blaster is an air-powered spraying tool. It is suitable for removal of rust and paint residue from small and poorly accessible metal and wood surfaces. In addition, the sand blasting set is used to obtain an adhesive substrate for subsequent coatings.

The grit material is drawn through the riser and sprayed by means of the supplied compressed air. The release of the material is carried out by a trigger mechanism that manually controls the valve fitted in the tool. The tool may only be powered by a suitable compressed air supply.

TECHNICAL SPECIFICATIONS POWAIR0014		Features	Box content	Symbols
Operating pressure	3 bar	• Type of feed: Suction	1x sand blaster	CE
Container capacity	1000cc		1x collection bag	
Nozzle diameter	Ø6mm		4x outlet nozzles	
Avg. air consumption	170 l/min		2x 1kg aluminium oxide powder	
Grit (blast media)	0.2-0.8mm		1x manual
