This LED floodlight is equipped with a passive infrared sensor that can detect the heat radiation and motion of people, animals or cars within a range of 6 meters. The time delay setting allows you to adjust the light duration from 3 seconds to 5 minutes.

This 30W LED floodlight with high powered surface mounted LED projects a bright and even floodlight of 2250 lumen with a colour temperature of 6500K. It has a protection level of IP65 and is therefore dustproof and watertight. The aluminium housing makes the floodlight impact-resistant. The POWLI20301 is designed to last up to 30.000 hours and can be pointed at different angles thanks to its adjustable bracket.
