ADJUSTABLE HEIGHT

This nicely designed 2000 lumen LED floodlight is perfect for both indoor and outdoor usage, such as jobsite, garden, studio and workshop. It only consumes 20W of electricity which makes it an extremely energy saving product. It consists of a high powered surface mounted LED to project an extremely bright even floodlight. The massive body is built from aluminium, mounted on a H-shaped stand. It's easy to install on the height-adjustable tripod stand and can be pointed at different angles. If desired, you can use the floodlight without the tripod too.
