AVAILABLE AUGUST 2014

FOLDABLE LED WORKLIGHT POWLI424

Versatile rechargeable worklight with 81 high power long-life LEDs. Use it folded, as flashlight or unfold the butterfly sides (1 side = 120 lumen / 2 sides = 260 lumen) for free-standing use in dark work areas. You can choose to switch on one or both sides. The rotating swivel hook allows for illuminating your projects hands-free. Furthermore this worklight has 3 integrated magnets to mount it to most metal surfaces. The cordless, rechargeable unit uses a Lithium-Ion battery. This technology gives your light a greater power, longer working time and it is always ready for use. No memory effect, no self-discharge of the battery even when the light is not used for a long time. Compact and lightweight design with soft grip handle and rubber protection cover. This light suits both indoor and outdoor use. It's provided with a 12V car adaptor and AC/DC adaptor.
