**POWX0042LI DRILL/SCREWDRIVER 12V LI-ION**

This cordless screwdriver/drill combines power with a wonderfully light feel in the hand. It is an ideal tool for all small DIY jobs around the house. The Li-Ion battery has no memory effect or self-discharge and only takes an hour to recharge. Because of the extra battery, you can work quickly and without interruption. On top of that, the built-in led light improves your visibility and gives you the opportunity to work in poorly lit spaces.

The POWX0042LI with soft grip has a two-speed gear and 21+1 torque settings.
