POWX0050LI DRILL/SCREWDRIVER 21.6V LI-ION

Impressive power combined with a wonderfully light feel in the hand. This cordless screwdriver/drill with Li-Ion battery can handle even the most challenging DIY jobs. The battery has no memory effect or self-discharge and only takes an hour to recharge. A convenient capacity indicator will let you know when it's time to recharge, so you can work quickly and hardly without interruption. On top of that, the built-in led light improves your visibility and gives you the opportunity to work in poorly lit spaces.

The POWX0050LI has a two-speed gear and 23+2 torque settings to support a wide variety of tasks. It even has an impact function for maximum drilling performance. The auxiliary handle, soft grip and wrist strap increase your comfort and control considerably.

TECHNICAL SPECIFICATIONS POWX0050LI		Features	Box content	Symbols
