POWX1172 HAMMER DRILL 1250W

You can use this electric hammer drill in 4 different modes: chiseling, hammer/drill, drill and chisel rotation. Switching from one mode to another is easy with the mode switch with safety lock. The anti vibration reduction system ensures a low vibration level for this powerful drill, that is capable of producing 3900 strokes per minute. It provides you with the needed comfort to work in concrete, steel and wood.

The hammer drill is equipped with a removable auxiliary handle and a depth stop that comes in very handy for pre-set hole drilling. It is delivered with an SDS key chuck with adaptor, a pointed and flat chisel, three drills and a dust cap.
