PAINT SPRAY GUN 750W WITH TROLLEY - POWX358

This HVLP paint spray gun has a trolley with storage for the cable and extra long hose of 3m. It allows you to freely move around and quickly paint large surfaces.

The HVLP spray gun has an optimized air pressure and flow which drastically reduces overspray and blowback. All the sprayed paint or varnish ends up neatly on your furniture, doors, walls, garden fences,... instead of wasted in the air.

To ensure the best result for any surface the spray gun is easily adjustable in 3 spray patterns (vertically, horizontally and round). You can even regulate the paint flow for a smooth and even result. The gun with quick release is easy to clean and the filter as well can be quickly changed.

TECHNICAL SPECIFICATIONS POWX358		Features	Box content	Symbols
