POWXG7217

CULTIVATOR + PLOUGH 208cc

This 2-in-1 cultivator with eco driver turbo engine can easily be converted in a plough. An initial ploughing is necessary when you want to cut deep into firm ground. It will turn over the upper layer of the soil, bring fresh nutrients to the surface and bury thick surface plant growth underneath where it will compose. The POWXG7217 has traction on both wheels and guarantees an easy handling while ploughing.

When you replace the wheels by the 6 reinforced steel knives, you can start to break up and cultivate the ploughed ground. You can quickly and efficiently aerate the soil, get rid off the last weeds and dig in fertilisers or compost. The POWXG7217 is easy to manoeuvre and is equipped with forward and reverse drive. The handlebar can be used in different positions and gives you extra comfort.

TECHNICAL SPECIFICATIONS POWXG7217		Features	Box content	Symbols
Cylinder capacity	208cc	<ul style="list-style-type: none"> eco driver turbo engine forward / reverse lever reinforced steel knives plough traction on both wheels for easy handling tools for easy mounting handlebar can be used in different positions adjustable speed setting 	1x gasoline cultivator
