DRILL/SCREWDRIVER 20V - POWDP1515

This 20V drill/screwdriver comes in a handy case, together with a 20V battery and a one hour charger. A free space is available to store an extra 20V battery. The drill/screwdriver itself is light and easy to use and has an impressive power to tackle all your DIY tasks around the house. It has two speed settings to choose from, one being 0-450min⁻¹ and the other being 0-1700min⁻¹, so you can always match the speed to the task at hand.

It has a high torque of 50Nm and 21+1 different torque settings. The keyless chuck allows a quick change of bits. On top of that, a built-in led light illuminates the work surface for easier drilling in dark places and a soft grip increases the comfort drastically.

Combine with a 20V or 40V DUAL POWER battery.
20V battery and charger included.
