GRASS TRIMMER 20V - POWDPG7540

This compact and light 20V grass trimmer with a cutting width of 250mm is a useful and handy garden tool to trim lawn edges or borders. No cable will disturb you while trimming. For your comfort this grass trimmer comes with an adjustable auxiliary handle, an extendable aluminium shaft and a rotatable head.

The telescopic aluminium shaft extends up to 620mm and the adjustable handle can be set in three different positions for a perfect trimming position. The rotatable cutting head allows you to work effectively at a comfortable working angle. So you can cut accurately around flower beds, under bushes, around trees and fence posts etc. The 4,5m double thread lengthens automatically every time you stop and start the trimmer again. No need to tap the head on the ground anymore, which will save you a lot of time. You can completely focus on the trimming job. You can work fast with this easy-to-use grass trimmer. Two small wheels will guide you while trimming the more difficult edges. Thanks to the flower protection bar you don't even have to worry about damaging your delicate plants while edging your lawn.

Combine with a 20V or 2x20V DUAL POWER battery. Battery not included.
