ANGLE GRINDER 20V+ CHARGER + BATT 20V - POWDP3515

This 20V angle grinder is equipped with a disc of Ø115mm that attains a rotation speed of 7000min⁻¹. It has a soft start that lets the engine start slowly and build up to full speed. This drastically increases safety and control.

The POWDP3515 has an extra auxiliary handle with soft grip, that can be set in two positions (left and right) for optimal user comfort and a superb control.

On top of that, it has a spindle lock and quick clamp system for an easy and quick change of the grinding disc.

The angle grinder comes in a nice case, together with the 20V battery and charger. Free extra spaces for another 20V battery and discs are provided. Disc is not included.
