Pro Power is especially designed to meet the demands of a professional. The superior quality tools deliver a high performance and can handle the most challenging tasks. With Pro Power you can be sure of extremely durable and reliable tools.

AVAILABLE APRIL 2018

JIGSAW 800W

This jigsaw with high precision laser and 4 pendulum positions guarantees an accurate sawing performance. The pendulum action lets you saw faster and in harder materials: it can cut up to 80mm in wood, 16mm in plastic and 10mm in steel.

You control the speed needed for the task with the electronic speed dial. The rotation speed can be set between 500 and 3000min⁻¹. The blades can be inverted easily thanks to the quick blade change system (T- and U-shaped connection).

The jigsaw has a strong aluminium base and can be attached to a vacuum cleaner in order to keep a clear view of the cutting line and guarantee a clean, dust-free working environment. Three blades and a side guide for straight cuts are included.
