2 SPEED SELECTOR

AVAILABLE APRIL 2018

IMPACT DRILL 18V

This 18V impact drill has a high torque of 50Nm for a wide range of applications. To select the optimal speed, the double speed setting can be set between 0-6400min⁻¹ or between 0-22400min⁻¹. The 13mm single sleeve keyless chuck has a lock function so the chuck is properly tightened during the job.

The impact drill with LED worklight comes with two Samsung 2000mAh batteries. That way there is always another battery at hand to keep working. A helpful battery status indicator will show when it's time to change battery and reload.

For an optimal user comfort and grip, the impact drill is equipped with a wrist strap and soft grip.

POWERPLUS

Pro Power is especially designed to meet the demands of a professional. The superior quality tools deliver a high performance and can handle the most challenging tasks. With Pro Power you can be sure of extremely durable and reliable tools.
